

## We Just Want To Roam

See the green grass on the hill  
The horizon it is rising and the sea is standing still  
We're looking over dunes and plains  
Seeing water floating over river banks and waterways

Cause we, we just want to roam  
The sun always shine to bring us home  
You know we, we just want to roam  
The sun always shine to bring us home  
Bring us home  
Bring us home

Lets move away from city streets  
There's far too many people and we're tripping over feet  
So lets imagine we're back there  
With the smell of summer fragrance and the warmth thats in the air

Cause we, we just want to roam  
The sun always shine to bring us home  
You know we, we just want to roam  
The sun always shine to bring us home  
Bring us home  
Bring us home

Hear the birds they're singing loud and unrestrained  
They're free to fly above the wild and open plain.  
Hear the waves they're crashing onto fine white sand  
It makes a peaceful song which echos over land

Cause we, we just want to roam  
The sun always shine to bring us home  
You know we, we just want to roam  
The sun always shine to bring us home  
Bring us home  
Bring us home  
Bring us home
