

# Course Calendar

Sept – Dec 2022

## Willow & Craft with ArtCare

Every Wednesday, 21 Sept – 9 Nov, 1-3:30pm

Bookings close 12 Sept

Join ArtCare and artist Jacqueline Rolls for a series of creative sessions where you will explore materials, tools and techniques working with natural resources, recycled elements, fibres, willow and more.

This free 8-week course is designed to encourage enjoyment and exploration of the natural world. Our activities will take place outdoors in the ArtCare Meadows Garden at Salisbury District Hospital, taking the opportunity to enjoy our garden space and the occasional walk in the surrounding autumnal landscape. You'll have time to experiment and become confident with materials to sketch, make twine, woven and 3D shapes. See more about Jacqueline's work <https://linktr.ee/willowandcrafts>

You don't have to have any previous experience or even think of yourself as particularly arty or creative to participate! Well-City Salisbury is about connection – to the arts, to heritage, to our local community, to the landscape and to each other.

## History Shared Within Clay with Salisbury Museum

Tuesdays, 11 & 18 Oct and 1 Nov - 6 Dec, 1:30-4pm

Bookings close 30 Sept

Based at the museum and working with artist Terry Kemp, you'll learn simple but effective pottery techniques and skills on this free 8-week course. Using self-hardening clay, paint and clay modelling tools you'll create beautiful objects – from pots to sculptures. There will be opportunities for exploring the museum's collections and getting up close and personal with some amazing objects to inspire your work. We'll also be learning more about Salisbury's history and growing our confidence through creativity.

This course is also a chance to meet new people and is suitable for all skill levels. Whether you think of yourself as a seasoned art pro or haven't done anything remotely 'arty' since your school days, all are welcome!
