

This is a very easy craft activity, ideal for all ages.  
You just need to be able to tie a knot!

**You will need:**

- Scrap fabric
- Sharp scissors
- Wire frame
- Ribbon

**Instructions:**

1. Cut your fabric into strips - about 20cm long and 2-4cm width.
2. Tie strips in a double knot around your wire frame.

Note: If you don't have a pre-made wire frame you could use an old wire coat hanger by bending it out into a circular shape and use the hook as the hanger.

3. Keep going all the way around the outside until your shape is full up.
4. Fasten a ribbon loop on the reverse, hang up and enjoy!

**Other ideas and tips:**

You could use string, wool or ribbon.  
Coloured plastic bags cut up would be good for outdoors.
