

## Instructions

1. Take a stem of light green willow (this tends to be the most pliable). Hold the green stem horizontally with one hand at each end

2. Push the two ends of the green willow together and cross them over

3. Tuck the loose ends over and underneath the circle, to complete the ring

4. Continue making more loops, with different coloured willow, to make a chain

5. Hang the willow chain in a location of your choice
